

LUSOCAL

THE BEST COMPONENTS
YOU WILL NEVER SEE

**SPECIALISTS IN
TOE PUFFS, HEEL COUNTERS,
AND REINFORCEMENTS FOR
FOOTWEAR**

TWO
PRODUCTION UNITS
ROMARIZ | FELGUEIRAS

10 THOUSAND
SQUARE METERS
OF TOTAL SITE AREA

CAPACITY OF OVER
1 MILLION
PAIRS A WEEK

HEEL COUNTERS

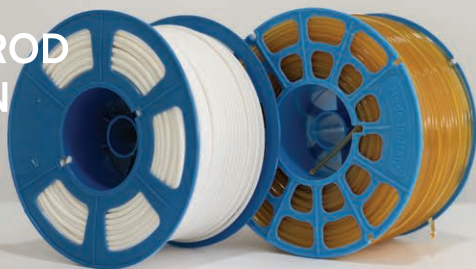

TOE-PUFFS

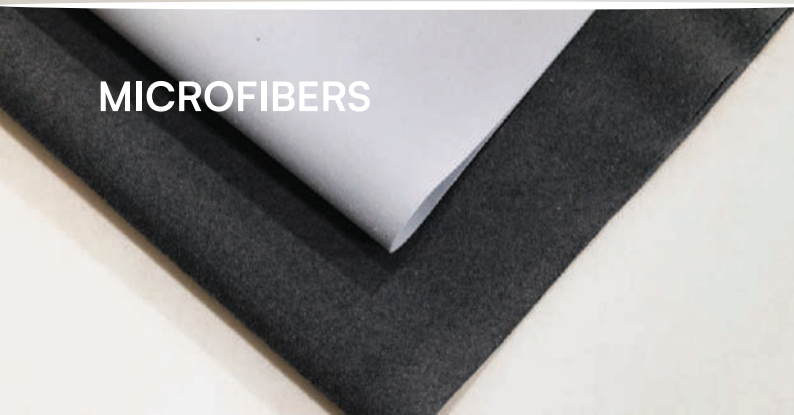

REINFORCEMENT AND CRIMPING

HOTMELT ROD
AND GRAIN

MICROFIBERS

FOAMS

STROBEL AND
PRATIK INSOLES

COMPONENTS FOR THE ORTHOPEDIC SECTOR

We produce a range of components
developed to meet the technical
challenges of the sector.

COMPLIANCE WITH MDR REGULATIONS

We work in accordance
with Regulation (EU)
2017/745 (Medical Device
Regulation - MDR)

ON THE PATH TOWARD A MORE CONSCIOUS FOOTWEAR PRODUCTION

RECYCLED AND GRS CERTIFIED PRODUCTS

RELION B, RELION S, RELION Z, RELION R

Up to **80%** recycled material

TALYN

Up to **71%** recycled material

AVANTGARDE, EXCEL, TADAS

Up to **27%** recycled material

STRATOS

Up to **50%** recycled material

TECNOPREN, LASER, ELASTENE, TECNOGIFLEX

Up to **24%** recycled material

GUPER

Up to **83%** recycled material

MICROFIBERS

Up to **50%** recycled material

VELVET, FELTRINO

Up to **57%** recycled material

RECYCLABLE

BIODEGRADABLE PRODUCTS

BIOREL

95%

biodegradable and compostable polymers

5%

biodegradable natural cotton

PLANT-BASED PRODUCTS

HELIOS

100%

biodegradable polymers

100+ TONS/YEAR OF RECYCLED SCRAPS

All of the scraps from our activity coming from the RELION and TALYN lines are sent back to TecnoGi, where they are reintroduced into the process of making our recycled ranges.

100% RENEWABLE ENERGY

Our two photovoltaic stations, installed in both of our production units, have an installed power of 465 kW, allowing us to be self-sufficient for a few hours a day during the summer. About 60% of our energy consumption is generated in our stations.

LUBRICANT OILS TREATMENT

We collect and send for treatment all of the lubricant oils used in our production process, about 20,000 liters/year.

ELECTRIC FLEET

Most of our commercial fleet is electric, composed of 12 EVs so far. Our commitment is to migrate all of our fleet to electric.

FSC & 100% RECYCLED PACKAGING

All our boxes are made from FSC-certified and 100% recycled cardboard. Our goal is to transition all our packaging to sustainable solutions.

WE ARE CERTIFIED BY SGS ACCORDING TO ISO 9001:2015, ISO 14001:2015, AND GRS.
